A Legacy Message™ is a Message of Love, Appreciation, and Advice to Inspire Your Loved Ones and Future Generations to Remember You and Achieve Success.

When you create a Legacy Message™, you have an opportunity to preserve family history, pass on your values, provide a lasting and private expression of love to your family, and encourage the achievement of your estate settlement and business succession plans.

You have a story to tell-whether you have served in the military, owned a business or raised a family; the story of your life matters. Through your Legacy Message™, you share positive messages that help you to avoid regrets, leave nothing unsaid, and inspire future generations to thrive. We create and communicate your message, which can be shared during or after your life.

**If You Were to Die Today, How Would You Be Remembered™?**  
**There is more to Your Estate than the Stuff You Leave Behind™**  
**Your Triumphs and Tribulations Can Inspire Others to Thrive.**  
**We Make Sure Your Legacy Is Planned and Shared.**
